

BTW – the new 16-year-old girl they signed – Lærke Møller – she sounds pretty interesting. She is said to be Denmark's biggest talent in handball *and* football(🤩🤩). Playing for the youth national teams in both sports at the same time is pretty impressive. Now was the time, where she had to pick one sport to focus on, and luckily she chose handball 😊

It seems Viborg have found the pivot they were looking for. GOG is a bit "short of cash", so Viborg have bought this years all-star pivot Lene Lund Nielsen.

It's not confirmed yet, but some media say it's a done deal and it is. There is no doubt now!

What do you mean short of cash? Are they selling the players? I remember they have the highest number of foreigners in the team and let the only good Danish leave?

Do they have contracts with all other players?

Maybe Viborg will get an extra back-player, but I doubt it. Their team is build up with one experinced player and one young talent on every single position except the pivot. They have three of Denmark's biggest talents K. Bille, A.G. Nørgård and T. Troelsen.
